Industrial designer, six years across consumer electronics, home appliances and robotics. Two home-robot concepts selected for development; a chai brewer taken from sketch to manufacture.

Experience

2024–26

Independent practice · India & USA

- Designed concepts for **Innate Robotics**' home robot in a team of three with Future Unit, through DFM-ready CAD; concept selected for development.
- Created investor-deck visuals of the robot in everyday use for the pitch that secured Innate's funding.
- Designed **Tangible Robotics**' home robot with Future Unit, resolving clearance and engineering constraints; concept selected for development.
- Took **Brewtal**'s chai brewer from concept to manufacture — the brand's first consumer electronics product, for homes and high-end cafés.

2022–24

CORE Experience · Intern → Industrial Designer · Bengaluru

- Designed a line of six home appliances as an intern and oversaw manufacture of two.
- Led consumer devices end to end — research, CMF, CAD, factory handoff; designed the chest plate for RIA (conversational robot).
- Built storyboards and pitch decks used in client pitches and leadership reviews.

2021

boAt · Industrial Design Intern · Bengaluru / Mumbai

- Designed accessory and audio concepts within brand language and mass-market cost; prepared production surfaces, exploded views and marketplace visuals for Amazon and Flipkart.

Education

2017–21

Symbiosis Institute of Design

B.Des, Industrial Design

2023

Offsite

Advanced Design programme, Cohort 2

Awards

2024
